Directions for use

1. FirstBase[®]2 Seed is a ready to use product, no mixing or other preparation is required.
2. It can be applied at any time of the day in direct sunlight if needs be.
3. No special storage or transport requirements are applicable.

Application methods:

FirstBase[®]2 Seed is best applied using the Microbial Solutions automated Seed Treatment Machine, and can be co-applied with almost all known agricultural fertilisers. Please contact Microbial Solutions on 0114754362 for details.

Storage and shelf life:

- As FirstBase[®]2 Seed can withstand temperatures of as high as 80°C for short periods of time it does not require refrigerated transport and can be stored at room temperature.
- FirstBase[®]2 Seed has a shelf life of one year, please see the outside of this label for expiry date.
- Whilst the product has UV light tolerance store out of direct sunlight.
- Store away from food and foodstuff.
- Keep out of the reach of unauthorized persons and children.

Precautions

Whilst no adverse reports have been received and FirstBase[®]2 Seed is a totally natural product the following precautions constitute good handling procedures and safe farming practices.

- Handle with care.
- Do not inhale spray mix.
- Use protective clothing such as gloves and boots when mixing and during application.
- If skin or eye contact occurs rinse with copious amounts of water.
- Destroy empty containers and do not use for any other purpose.
